Data Files

Data files recently released by the Census Bureau are listed below. They are sold by Customer Services unless otherwise noted.

Use form 2, page 7.

The cost of new files on computer tape generally is based on the file size, with the minimum charge being \$175. The files are offered on tape reels or tape cartridges.

Data files also are offered on compact disc--read-only memory (CD-ROM), a 4 3/4-inch laser disc. The price for a mass-produced CD-ROM, prepared for popular files, generally is \$150.

CD-ROM's also can be prepared on request for other data files otherwise available only on tape reel or cartridge. The cost for such CD's is the same as the cost for the tape file. The CD files are ASCII copies in the same format as on tape, and they are not accompanied by software. Since the discs are specially prepared in response to customers' requests, orders take about 2 weeks. For further information about this service, contact Customer Services.

Files available on diskette ("floppies") for IBM and compatible microcomputers also are listed.

An ever increasing variety of data files and product information (including this publication) can be accessed via the Internet. (See "How to Order" on page 4 for more information.)

Technical documentation, included with each file order, also is generally available separately. The price varies.

Free *Data Developments* booklets provide brief descriptions of most files. They may be requested from Customer Services. Use form 2, page 7.

Selected Abstracts

This section features abstracts for various products released during the month or previously released products of wide interest.

Measures of Value Produced, Capital Expenditures, Depreciable Assets, and Operating Expenses, Subject Series (RC92-S-2)

Data time span--1992.

Geographic areas covered--United States.

*Subject content--*This report provides 1992 data on sales, inventories, capital expenditures, depreciable assets, operating expenses, and measures of value produced for firms with employees in retail trade, with separate statistics for major kinds of business. Tables on value produced include sales; cost of goods sold; gross margin (i.e., sales less cost of goods sold); and value added (i.e., gross margin less some operating expenses--such as purchases of fuels and office supplies) along with net income produced at market prices and factor cost, with separate data for corporations.

Operating expenses cover payroll, employer cost for fringe benefits, and various other costs, ranging from advertising to equipment repairs.

Figures on gross value of depreciable assets, depreciation charges, and lease and rental payments--as well as capital expenditures--apply to buildings/structures and, separately, to machinery/equipment. Data on corporations include assets at the end of 1991 and 1992.

56 pp. 1997. \$10. Use order form 1, page 7.

How to Order

Publications

Most Census Bureau publications are available through one of three offices: the Census Bureau's Data Preparation Division (see order form 1), the Census Bureau's Customer Services (see form 2), or the Government Printing Office (see form 3). The new publication entries in this *Monthly Product Announcement* direct you to the right source by specifying the form to use or specifying another office as the source.

As the forms indicate, both Customer Services and the Government Printing Office (GPO) accept phone or fax orders when you charge to VISA, MasterCard, or a deposit account. GPO also accepts the Discover card. Both offer express service for off-the-shelf products for an extra charge when you order by phone.

Generally, if you order 100 copies or more of a publication sent to one address, you may take a 25-percent discount.

Computer Files

To order data files, use order form 2 or order by phone or fax, unless the entry gives other instructions.

Technical documentation accompanies each file, or it often may be ordered separately, using form 2.

Files on computer tape are offered on tape reels or tape cartridges. The tape cartridges are IBM 3480 compatible (operable with

StorageTek 4780 tape subsystems and Digital Equipment Corporation VAX TA90 subsystems).

When mass-produced, files on CD-ROM (compact disc—read-only memory) also are listed in the "Data Files" section earlier in this publication. Customer Services offers priority service for off-the-shelf products for an extra \$25 fee when you order by phone.

Other tape files can be produced on CD-ROM by special order for the price of the tape. See the discussion under "Data Files."

Some data files are available on diskettes for IBM and compatible microcomputers.
